# 1.0 Introduction

## 1.1 Introduction

In the next hour, we'll discuss how to:

- Capitalize on the vast array of research that SpringerLink offers
- Utilize the easy to navigate portal, and
- Navigate through the tools that have been constructed on the site to help you with your searches

## 1.2 What is SpringerLink?

- SpringerLink is a powerful central access point for researchers in Science, Technology and Medicine, containing high quality:
  - Online Journals
  - eBooks
  - eBook Series
  - eReference Works

**~ Available on  
Springerlink.com**

## 1.2 What is SpringerLink?

- **SpringerLink is organized in 12 Subject Collections:**

1. Architecture, Design & Arts (New for 2006, eBooks only)
2. Behavioral Sciences
3. Biomedical & Life Sciences
4. Business & Economics
5. Chemistry & Materials Science
6. Computer Science
7. Earth & Environmental Sciences
8. Engineering
9. Humanities, Social Sciences & Law
10. Mathematics & Statistics
11. Medicine
12. Physics & Astronomy

- **And 2 International Collections:**

1. Russian Library of Science (New for 2006, journals only)
2. Chinese Library of Science (New for 2006, journals only)

## 1.2 What is SpringerLink?

### **SpringerLink offers:**

- An unequalled collection of Online Journals, eBooks, eReference Works and eBook Series, with more than 3 million contributions
- A retro-digitized archive of journals and a selection of book series
- Powerful, easy-to-master search engine with „Guided Navigation“
- Multiple browsing pathways - product and subject categories, A-Z lists
- Access right markers
- Local or remote access
- Enhanced personalization features
- SpringerAlerts for users and librarians and RSS feeds
- Worldwide Help Desk

## 2.3 How to register

### **Why would you need to register?**

- Receive or create new email Alerts
- Create a personalized home page by setting-up favorites
- Save your search results for future reference
- Go back in your search history
- Better organize the data, especially as you make return visits to the site.
- Take your access on the road

## 2.3 How to register

The screenshot shows the SpringerLink homepage. On the left is a sidebar with navigation links. The main content area includes a welcome message, a search bar, and two columns of category links. The 'log in or register' link in the sidebar is highlighted with an orange box.

### Register

**Please determine the appropriate registration option.**  
Registration is intended only for individuals to enable use of the personalization and management features on SpringerLink.

**Individuals**  
If you subscribe to a Springer online publication and do not have access, please:

- 1) Register as an individual if you are not already.

**Register Individual**

- 2) Send an email with your MetaPress ID, the name on the subscription, and order details to the SpringerLink helpdesk.

In the Americas: [springerlink-ny@springer.com](mailto:springerlink-ny@springer.com)  
Outside the Americas: [springerlink@springer.com](mailto:springerlink@springer.com)

**Others**  
Institutions, consortia, societies, editorial boards and other organizations wanting online access to their subscriptions that are not yet registered as a SpringerLink customer, need to contact the helpdesk. Institutions need to sign the SpringerLink contract that will be sent to them by the helpdesk.

## 2.3 How to register

The screenshot shows the SpringerLink website interface. At the top, there is a search bar with the text 'Find' and a 'Go' button, followed by links for 'Content Types' and 'Subjects'. A language dropdown menu is set to 'English'. On the left sidebar, the SpringerLink logo is at the top. Below it, the user is logged in as 'Christel Keurentjes (620-61-367)'. There are links for 'Log in via Athens', 'End Session', and 'Recognized as: Springer (200-76-474)'. A section titled 'My SpringerLink' contains links for 'Marked Items' and 'Alerts'. The main content area has a dark header that says 'Individual Registration Complete'. Below this, a message states: 'Your individual registration is complete and your login information has been e-mailed to you.' To the right, it says 'You have been logged in as: ckeurentjes' and 'Your MetaPress ID is: 620-61-367'. A 'Note' follows: 'Please save this information or the e-mail just sent to you. Your MetaPress ID may be required in any correspondence with the publisher concerning online access at this or other sites.' A 'Continue' button is located at the bottom right of the main content area.

- You will then see and “Individual Registration Complete” page with your MetaPress ID number.
- You will also receive an email confirmation

#### Abstract

With the development of multidetector computed tomography and the improvement in the capabilities of workstations, the use of high-quality three-dimensional reconstructions and virtual images can be applied to organs other than the colon such as the stomach. As a noninvasive technique, virtual gastroscopy represents an alternative to conventional endoscopy for the detection of elevated lesions. Findings of this technique are illustrated.

**Key words:** Multidetector computed tomography—Virtual endoscopy—Three-dimensional computed tomography—Computer-assisted diagnosis—Stomach

in the evaluation of the gastric lumen using MDCT three-dimensional reconstructed and virtual endoscopic images.

#### Material and methods

##### Patients

We prospectively evaluated CT datasets from 38 patients (17 male, age range 20–62 years, mean age  $51 \pm 13.2$  years; 21 female; age range 37–72 years, mean age  $56.7 \pm 10.1$  years) who were imaged for the study of the stomach. All patients underwent CT gastroscopy and conventional upper GI endoscopy within one week of the

**Abstract** With the development of multidetector computed tomography and the improvement in the capabilities of workstations, the use of high-quality three-dimensional reconstructions and virtual images can be applied to organs other than the colon such as the stomach. As a noninvasive technique, virtual gastroscopy represents an alternative to conventional endoscopy for the detection of elevated lesions. Findings of this technique are illustrated.

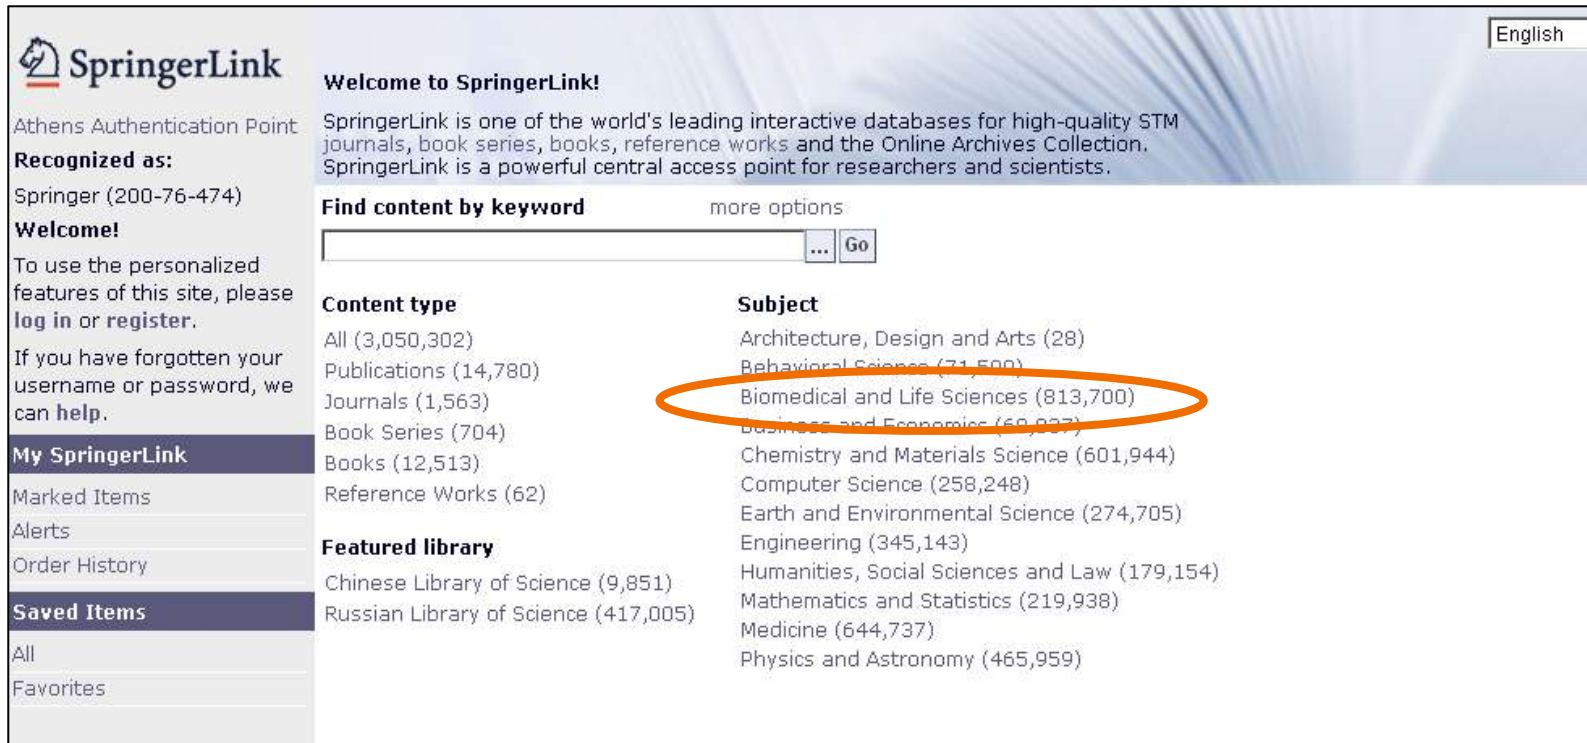

**Keywords** Multidetector computed tomography - Virtual endoscopy - Three-dimensional computed tomography - Computer-assisted diagnosis - Stomach

---

Virtual computed tomographic (CT) endoscopy is a new method of imaging the gastrointestinal (GI) tract in which thin-section, helical CT is used to generate high-resolution, two-dimensional axial images. Three-dimensional images simulating those obtained with conventional endoscopy are then reconstructed off-line

**Basic Entry  
information**

A mathematical technique commonly used to assess mortality in insecticide trials when there is need to correct for a change (decrease) in the background population density (i.e., in the check or control plots). The formula is:

$$\text{percent corrected control} = (\% \text{ alive in the check} - \%$$
$$\% \text{ alive in the treatment} /$$
$$\% \text{ alive in the treatment})$$
$$\times 100$$

## 4.0 Search Features

## 4.1 Basic Search

The screenshot shows the SpringerLink homepage. On the left is a navigation sidebar with links like 'My SpringerLink', 'Marked Items', 'Alerts', 'Order History', 'Saved Items', 'All', and 'Favorites'. The main content area has a 'Welcome to SpringerLink!' message and a search bar. The search bar is highlighted with an orange box and contains the text 'Plant Ecology'. To the right of the search bar is a yellow callout box with red text that says 'Enter the keyword or publication you are looking for'. Below the search bar are two columns of links: 'Content type' (All, Journals, Book Series, Books, Reference Works) and 'Subject' (Architecture, Design and Arts, Behavioral Science, Biomedical and Life Sciences, Business and Economics, Chemistry and Materials Science, Computer Science, Earth and Environmental Science, Engineering, Humanities, Social Sciences and Law, Mathematics and Statistics, Medicine, Physics and Astronomy).
